

Hello Families!

This year, we will be using a tool called Duolingo for Schools. Duolingo is a free app designed to help students learn languages. Because Duolingo can be downloaded to any smartphone, and even used on a web browser on computers, it means that students will have access to additional practice in their language at their fingertips!

Their login details will be given to them via their contact books.

Please consider supporting your child at home by encouraging them to spend time with Duolingo. Encourage them to maintain their Streak by ensuring that they log time daily, if only just a few minutes! You can also help them stay motivated by providing reminders, or even practicing by signing up and utilizing a free Duolingo account yourself!

Together, we can ensure that they maximize their learning, both inside and outside of the classroom.

Thank you for your continued support,

Mrs L Picciola
